

2017 Fact Sheet!

Description

PS LIGHTWAVE is the consultative data connectivity provider for public and private entities in the Greater Houston area. Through our high-quality infrastructure, innovative technology and superior level of support, we deliver the best of connectivity, reliability, scalability and redundancy.

Network

PS LIGHTWAVE has one of the largest private Metropolitan Area Networks (MANs) in the U.S. The facilities-based fiber optic network spans approximately 5,000 route miles and features 1,400 on-net locations. PS LIGHTWAVE's switched Layer 2 infrastructure is backed by local 24/7/365 Network Operations Center (NOC) support and connects 50+ fault-tolerant multi-gigabit Ethernet rings for built-in redundancy, security, high-availability, and sub 2ms latency.

Services

We offer managed Gigabit Ethernet services, Internet, Dark Fiber, Voice over IP (VoIP) and data center connections to carriers, enterprise, cities and municipalities, and educational institutions throughout Texas. Data Center and IP Interconnection sites in Houston include: CyrusOne West; CyrusOne Galleria; Data Foundry; Internap; Level 3 (Data Center 1); 811 Louisiana Street (a/k/a 777 Walker Street); Quasar; StratITsphere; Sungard; and The Bunker.

Geographic Coverage

PS LIGHTWAVE's network infrastructure spans seven counties and reaches distant locations such as Baytown, Freeport, Magnolia, Richmond-Rosenberg, Splendora, Texas City and Willis, Texas.

Differentiators

Clients benefit from customized solutions, build-to-suit networks and allows customers to burst beyond bandwidth to a max port speed of 100 Mbps based on the 95th percentile usage rule. Additionally, our Network Operations Center (NOC) offers 24x7x365 live support.

Company Values

Our company values represent the foundation from which we conduct business daily. Every day, our employees operate from four tenets: Growth, Respect, Integrity and Trust (GRIT), applying our core values in our interactions with customers, partners, vendors, and employees.
